Dear parent/guardian,

Your child has been referred to the Student Assistance Program (SAP). The SAP program was developed to offer supportive services to students experiencing difficulties that may interfere with their success at school. The SAP team is comprised of administrators, the school nurse, guidance counselors, teachers and consultants from community agencies. Students can be referred by parents, school personnel, peers, concerned community members or through self-referral.

Once a student is referred, the SAP team gathers information and works with the family to develop a plan to access services that best meet the needs of the child. The SAP team realizes the importance of parental and student involvement in this process; therefore, we require both the parent's and student's written permission for the child to be involved in the SAP process.

Please complete the permission portion of this letter and return it as soon as possible to the following SAP team member:

\_\_\_\_\_ Phone Number \_\_\_\_\_  
SAP Team Member

Please feel free to contact the SAP team with any questions.

---

I give permission for \_\_\_\_\_ to be involved with the SAP team.  
(student)
